## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 4, 6-9, 11-27, and 30 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 4 and 6-9 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 3 wherein the clock generation circuit includes at least one control register (330) *and control logic (350) in combination with the rest of the limitations of the base claims and any intervening claims*. Claims 11 and 16-18 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 3 wherein the method of operating includes the ability to change the frequency of the first clock on the fly *in combination with the rest of the limitations of the base claims and any intervening claims*. Claims 12-15, 26-27, and 30 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 3 wherein the method includes placing the chip in a first power saving mode by changing the first frequency ratio such that the first circuitry is clocked at a lower rate in combination with the rest of the limitations of the base claims and any intervening claims. Claims 19-25 are allowed because the closest prior art of record fails to disclose a circuit wherein the method includes waiting until a defined time relative to the period of the second clock (SCLK) while holding the state of the first clock; and loading the new value in a control location at the defined time in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
